Alistair was a brilliant and uniquely creative geomorphologist who brought a philosophical edge to our profession... It is impossible for me to describe how much I appreciated this wonderful, enthusiastic, and warm genius of a man.

Joe Schuldenrein

President, Geoarcheology Research Associates

Alistair was a great character, curmudgeonly at times but always interested in what was going on with you and the world in general. I'm sure I don't need to tell you, but he will be sadly missed.
